## INVITATION TO:

## **BRAINSTORMING GREEN** TRANSITION RESEARCH IN **FOOD AND AGRICULTURE**

Join the brainstorming event on the green transitions within food and agriculture on April 1st 2020, where we invite researchers from AU for a dialogue and project idea pitches. This is your opportunity to get inspired and network for research proposals

Danmarks Frie Forskningsfond (DFF, also known as Independent Research Fund Denmark) will issue a call for research on Green Transition for 360 million DKK in 2020. The primary aim of this research will be to support the transition towards a climate neutral society.

The projections for greenhouse gas emissions show that by 2030, agriculture and food production will account for almost half the greenhouse gas (GHG) emissions point with information on your research in Denmark. Research on novel aspects of how changes in agriculture, food production and land use can reduce or offset emissions are critical to meet the societal objectives.

Three of the AU interdisciplinary centers working in this area (iCLIMATE, iFOOD and CBIO) have joined forces to host a networking event, where we invite AU researchers for dialogue and feedback on project ideas.

We expect all interested researchers to present their project ideas and/or key competences in the area. This will be organized by presenting 1-page powerand project idea. We ask participants to submit their powerpoint prior to the event. DATE: Wednesday, 1st April 2020

TIME: 9:30-15:00

**LOCATION**: Department of Food Science, Aarhus University, Agro Food Park 48, 8200 Aarhus N

## **REGISTRATION**

Please register your participation at https://tilmeld.events/greentransition NB: Sign up early as we have limited space! Registration deadline: 27 March

## **PROGRAMME:**

<ul> <li>09:30-10:00 Coffee and registration</li> <li>10:00-10:10 Welcome / Jørgen E. Olesen</li> <li>10:10-10:30 Introduction to DFF and the Green Transition call Bent T. Christensen</li> <li>10:30-10:40 CBIO activities and priorities Uffe Jørgensen</li> <li>10:40-10:50 iFOOD activities and priorities Milena Corredig</li> <li>10:50-11:00 iCLIMATE activities and priorities Jørgen E. Olesen</li> <li>11:00-12:30 First round of pitches and networking</li> <li>12:30-13:00 Lunch with networking</li> <li>13:00-14:30 Second round of pitches and networking</li> <li>14:30-15:00 Reflections, plans and other funding possibilities</li> <li>Jørgen E. Olesen</li> </ul>		
10:10-10:30 Introduction to DFF and the Green Transition call Bent T. Christensen  10:30-10:40 CBIO activities and priorities Uffe Jørgensen  10:40-10:50 iFOOD activities and priorities Milena Corredig  10:50-11:00 iCLIMATE activities and priorities Jørgen E. Olesen  11:00-12:30 First round of pitches and networking  12:30-13:00 Lunch with networking  13:00-14:30 Second round of pitches and networking  14:30-15:00 Reflections, plans and other funding possibilities	09:30-10:00	Coffee and registration
Bent T. Christensen  10:30-10:40 CBIO activities and priorities Uffe Jørgensen  10:40-10:50 iFOOD activities and priorities Milena Corredig  10:50-11:00 iCLIMATE activities and priorities Jørgen E. Olesen  11:00-12:30 First round of pitches and networking  12:30-13:00 Lunch with networking  13:00-14:30 Second round of pitches and networking  14:30-15:00 Reflections, plans and other funding possibilities	10:00-10:10	Welcome / Jørgen E. Olesen
10:40-10:50 iFOOD activities and priorities Milena Corredig  10:50-11:00 iCLIMATE activities and priorities Jørgen E. Olesen  11:00-12:30 First round of pitches and networking  12:30-13:00 Lunch with networking  13:00-14:30 Second round of pitches and networking  14:30-15:00 Reflections, plans and other funding possibilities	10:10-10:30	
Milena Corredig  10:50-11:00 iCLIMATE activities and priorities Jørgen E. Olesen  11:00-12:30 First round of pitches and networking  12:30-13:00 Lunch with networking  13:00-14:30 Second round of pitches and networking  14:30-15:00 Reflections, plans and other funding possibilities	10:30-10:40	
Jørgen E. Olesen  11:00-12:30 First round of pitches and networking  12:30-13:00 Lunch with networking  13:00-14:30 Second round of pitches and networking  14:30-15:00 Reflections, plans and other funding possibilities	10:40-10:50	iFOOD activities and priorities Milena Corredig
<ul> <li>12:30-13:00 Lunch with networking</li> <li>13:00-14:30 Second round of pitches and networking</li> <li>14:30-15:00 Reflections, plans and other funding possibilities</li> </ul>	10:50-11:00	
<ul><li>13:00-14:30 Second round of pitches and networking</li><li>14:30-15:00 Reflections, plans and other funding possibilities</li></ul>	11:00-12:30	First round of pitches and networking
14:30-15:00 Reflections, plans and other funding possibilities	12:30-13:00	Lunch with networking
	13:00-14:30	Second round of pitches and networking
	14:30-15:00	

The presentations and networking will be organized around six key topical areas, where each participant is asked to indicate two preferred topics:

Reducing CH4 and N2O emissions through microbial manipulations

Reducing GHG emissions through genetic improvements

Reducing carbon footprints through circular biomass chains

Offsetting emissions through carbon storage and biogeoengineering

Optimising carbon neutrality through digital technologies

Carbon neutrality of Sustainable Food Systems
